

HE IS IN ONE WITH US!

A Cousin and Friend with whom I shared mutual respect and unity...
Another Indigenous son is ceded to the Ancestors on Thursday April 4th 2024 on the Day that Eusi Kwayana is celebrating his birthday/birthdate and on the said day April 4th 1968 Dr. Martin Luther King Jr. is assassinated in Memphis , Tennessee – Felix Brentnol Blair’s esteemed foot prints will be preserved – his academic prowess – his advice – his benevolence – his business acumen – his love for family – his posture, even if you disagree with him – his sensitivity and impartiality – his altruism – his keen sense of community – his organizational merits - as we share experiences the script will continue relentlessly because his foot prints created a pinnacle for reflection –as he lives through us – reflect – analyze – analyze. Then take a page – do not despair – the land is fertile - Life flows and he Over stands frailty and the inner workings of nature. Salute the Indigenous Son Felix Brentnol Blair – to some affectionately “Fat Boy” Pooch/Putsch as he played forward defense “Bat close to pads”, a sports enthusiast to the Core! I advise you to embrace the timeless tradition of comforting each other as the Ancestral tree blooms - thus giving all the strength to endure – be courageous, he was. Peace is unto him. He is in one with us!

Asante Sana (Thank you very much!)
